

SUMMARY OF ISLAM

*Islamic ideology and western democratic principles are fundamentally incompatible.
If democracy is to survive then Islam must be destroyed.*

- Islam is unlike other religions – seeking to control everyone including non-believers.
- Islam has characteristics of a political ideology. It is totalitarian and intolerant.
- Mainstream politicians are in denial regarding Islam. Are they ignorant or liars?
- Those of us who are concerned must inform politicians of the harsh truth.
- Politicians often tell lies in support of Islam. Invariably after terrorist attacks.
- We must make clear to politicians that their lies and excuses are unacceptable.
- Particularly the left wing politicians are naïvely complacent.
- Left wing parties such as Labour in the UK are increasingly reliant on Muslim votes.
- Islam has almost nothing in common with left wing values of equality and fairness.
- Islam does share a sense of grievance with the left.
- If the left is to be true to its traditional values it must stop supporting Islam.
- There is no such thing as moderate Islam. Read the Koran and see it for yourself.
- So-called “moderate Muslims” have zero theological basis for being moderate.
- There is a conflation of criticism of Islam with racism. Islam is not a race.
- A phobia is an irrational fear. There is nothing irrational about fearing Islam.
- Islam comprises the Koran and Mohammed.
- The Koran has numerous instructions to religious hatred – to kill non-believers.
- The violent verses are the more recent and supercede the tolerant earlier verses.
- “Abrogation” is the term describing this superceding of verses.
- There are effectively two Korans, the earlier more tolerant, and the later intolerant.
- Mohammed was a violent, delusional, illiterate, anti-Semitic warlord.
- He used fear to control his followers, particularly the fear of everlasting hell fire.
- Ironically hell was a pagan concept originally. Islam opposes paganism.
- If Muslims could lose their fear of pagan hell, then Islam will collapse.
- Mohammed commanded death to those who refused to believe him.
- Jewish communities were massacred because they did not see him as a prophet.
- Anti-Semitism is engrained within Islam.
- Mohammed himself killed hundreds of Jews with his own weapon.
- Anti-Semitic attacks are increasing rapidly in the UK as the Muslim numbers grow.
- Trends show that Muslims will likely be the majority in the UK this century.
- Tolerance is a good thing generally, except where it tolerates evil.
- Islam is demonstrably evil – just read the Koran and see it for yourself.
- Islam includes many dangerous absurdities, which must be exposed.
- The Koran claims to be perfect, and yet it has numerous scientific absurdities.
- However Islamic religious faith is resistant to truth and honesty.
- Muslims are permitted to tell lies for Allah, without remorse. It is called “taqiyya”.
- Muslims in the UK have not been arrested for inciting murder, in full view of police.
- Sharia Law demands the death penalty for apostasy. It is the worst crime possible.
- Labour government officially authorised Sharia Councils in the UK.
- Conservative – Lib Dem government did not close down Sharia Councils.
- Islam regards Sharia Law as superior to man-made democratic laws.
- It is futile to try to import democracy into Islamic countries because of this attitude.

If any of these points were unknown to you then there is surely much more that you are not aware of. It is necessary to read the Koran itself. “The Koran in Reverse Chronological Order” with notes describing key aspects of Islam is freely available from here: <http://blueprintislam.bravesites.com/>

The Koran is the most important book you can read.
